## EDUCATION

### New York University Abu Dhabi

**Bachelor of Science**, General Engineering, Urban Systems and Smart Cities track | **GPA:** 3.37/4.00

**Abu Dhabi, UAE**

(Aug. 2022 – May 2026)

**Relevant Coursework:** Affordable Sustainable Housing, Citizen and the City, Cities in Developing Countries, Design and Innovation, Environmental Engineering, Natural Catastrophes and Cities, Understanding Urbanization, Urban Sensing

## WORK EXPERIENCE

### SHORES Research Center, Dr. Rita Sousa's Lab

*Research Assistant*

**Abu Dhabi, UAE**

(Sept. 2025 – July 2026)

- Researched the effect of land reclamation and urban morphology on the urban heat island effect in the Gulf Region
- Conducted fieldwork to cross-reference satellite data and on-site climate conditions, analyze over 100 data points for accuracy of satellite data points and create heat maps using field and satellite data

### Teteven Municipality, Office of Land Management

*Assistant to the Chief Architect*

**Teteven, Bulgaria**

(July 2025 – Aug. 2025)

- Assisted the Chief Architect of the Teteven Municipality with drafting construction permits, editing court statements, and revising cadastre maps. Participated in the bi-weekly Expert Council meetings, reviewing new investment projects.

### National Community Stabilization Trust

*Research Intern*

**New York, NY, USA**

(Feb. 2025 – May 2025)

- Tested previously developed statistical frameworks for defining middle neighborhoods in New York City, economic cornerstones of American cities
- Proposed amendments to research methods and discovered 32 potential middle neighborhoods in NYC

### Anthropocene Research Kitchens NYUAD

*Research Assistant*

**Abu Dhabi, UAE**

(Dec. 2023 – Dec. 2024)

- Contributed to paper on ethnographic research on the use of public spaces in Abu Dhabi and narrated the soundwalk for the Global Performance Studies Journal, Issue 7.1 Uhambo (published)
- Recorded over 20 soundscapes and 5 interviews in Electra Park, Abu Dhabi, for a soundwalk component of a project on African migrants in Abu Dhabi

### MIT Senseable Dubai Lab \*

*Visiting Student*

**Dubai, UAE**

(June 2024 – July 2024)

- Conducted 2 literature reviews and proposed 2 new projects on the integration of computer vision models for improvement of urban management services (\*signed NDA)
- Analyzed Google Street View data for an ongoing project on urban microclimates; Modeled attaching components for a sensor under development on Onshape
- Participated in weekly research presentations, workshops with local transportation authorities, and meetings with collaborators

## LEADERSHIP

### General Engineering Major Representative

(Oct. 2025 – May 2026)

- Responsible for collecting and relaying feedback from General Engineering students across all classes to the Dean of Engineering. Spearheading a curriculum change for General Engineering students.

### The Gazelle, Editor-in-Chief

(Sept. 2022 – May 2026)

- Managed team of 47 editors and 10+ staff writers of NYUAD's weekly newspaper, communicate with legal team and university administration, manage collaborations and mentorships, organize workshops and authored over 120 articles in 4 years (average article count per author: 10)

## VOLUNTEERING

### URBZ Studio, Visiting Student

**Dharavi, Mumbai, India**

(Sept. 2025 – Dec. 2025)

- Mapped damages to water supply and sewage systems. Designed new permeable pavement made from locally sourced materials like fire terracotta and recycled plastics to improve rainwater management and pedestrian infrastructure of the fishers' village in Dharavi

## SKILLS

**Certifications:** LEED Green Associate (by Leadership in Energy and Environment Design, certified: April 2026, LEED v.4.1); **Project Management Foundations Certification** (by NASBA and Project Management Institute)

**IT:** Microsoft Suite, Google Suite, Java, MATLAB, Onshape, SolidWorks, SketchUp (architecture), TwinMotion, Rhino (product design), ArcGIS/Esri Suite, QGIS, Google Earth Engine Code Editor.

**Laboratory:** Water quality testing; Applied Physics Lab; Chemistry Lab; Geotechnical Engineering; Engineering Materials Testing.

**Languages:** Bulgarian (Native), English (Fluent), German (Intermediate), French (Beginner), Swedish (Beginner)

**Interests:** Swimming, Writing, Music Festivals, Sustainable Travel
